

What is claimed is:

1 1. A housing structure, comprising:

2 a body;

3 a supporting component disposed on the body and
4 extendable between a first position providing a
5 first supporting region and a second position
6 providing a second supporting region
7 substantially larger than the first supporting
8 region.

1 2. The housing structure as claimed in claim 1,
2 wherein the body is rectangular.

1 3. The housing structure as claimed in claim 1,
2 wherein the supporting component has a main portion for
3 abutting the body.

1 4. A housing structure, comprising:

2 a body having a first positioning portion;

3 a supporting component disposed on the body and
4 extendable between a first position providing a
5 first supporting region and a second position
6 providing a second supporting region
7 substantially larger than the first supporting
8 region, with a second positioning portion
9 engaged with the first positioning portion.

1 5. The housing structure as claimed in claim 4,
2 wherein the body is rectangular.

1 6. The housing structure as claimed in claim 4,
2 wherein the first positioning portion is a guiding slot.

1 7. The housing structure as claimed in claim 4,
2 wherein the second positioning portion is a guiding post.

1 8. The housing structure as claimed in claim 4,
2 wherein the supporting component comprises a first plate
3 and a second plate connected to the body and moving
4 between the first position and the second position.

1 9. A housing structure, comprising:

2 a body having a first positioning portion;

3 a supporting component having a first plate and a
4 second plate disposed on the body and
5 extendable between a first position providing a
6 first supporting region and a second position
7 providing a second supporting region
8 substantially larger than the first supporting
9 region, each of the first plate and the second
10 plate has a second positioning portion engaged
11 with the first positioning portion and a main
12 portion for abutting the body.

1 10. The housing structure as claimed in claim 9,
2 wherein the body is rectangular.

1 11. The housing structure as claimed in claim 9,
2 wherein the first positioning portion is a guiding slot.

 12. The housing structure as claimed in claim 9,
 wherein the second positioning portion is a guiding post.
